Spring has sprung and as we close in on the first half of the financial year, its a great time to dust off the to-do list and see what you have achieved. This month we are focusing on business coaching and how it can benefit business owners in unlocking their business potential. Take advantage of our discounted Business Coaching Package and reap the rewards like Fel Group who feature in this month's client story.

We also achieved another interesting milestone this month with more than half our business clients now using Xero accounting software. Which as big fans of Xero is no surprise to us. And to help our clients unlock the potential of this software, we've included a Xero Tips and Tricks article.

Lastly, on a personal note, I was inspired by the recent Olympic games to enter some swimming events in the Masters Games being held in Auckland next April. Having been three decades since my last competitive outing, I'm not planning on breaking any world records but the regular squad training is great for my health and fitness and I'm looking forward to taking part.
